THREE PARDONED.—Governor Penoyer has today issued a full pardon to the following men at the Oregon state penitentiary: John W. Bare, three years for larceny from Morrow county; John Thompson, fifteen years for man slaughter from Morrow county; Mose Bedford, Umatilla county, two years for larceny. THE LATEST.—The plan upon which the New York Racket works, can only result in saving money to their customers. Their goods are paid for in cash, from the manufacturer to them, and they mark at very close profits, and sell for cash only. On their line of ladies' gents' and children's shoes, there is a saving from 10 to 20 percent, and on flannels, embroideries, lace and ribbons, from 25 to 50 percent; their hats, boys' clothing, and mens' pants and overalls show a large percentage saved, and on all notions they are away below all competitors. They request all to call and examine their goods and prices.

A JAP CREW.—The special crew of Japs employed by the Southern Pacific at Salem consists of natives of the Japan Archipelago, whose housekeeping outfit consists of a mat to crawl under when it rains and tea kettles. They went north this morning to do some track work around trestles and put in some culverts. They have steady employment when many poor white men who have families have to go without.

COMING HOME.—Dr. Richard Cartwright, of Jessup & Cartwright, who has been attending a course of lectures in surgery at Chicago writes that he expects to start for Salem April 14th, and says: "I shall be very glad to see Webfoot again, although we have no building on the world's fair grounds."

TURNER MILLS.—J. C. Robertson, J. T. Brumfield and John Hallman, of Portland today filed articles of incorporation for the Turner flouring mills company, with a capital of \$25,000, and business office at Portland.

RICHARDSON BOUND OVER.
 Synopsis of Testimony Against the Man
WHO SAVED THE TRAIN AT YONCOLLA

But Little of a Positive Nature Found—No Jury Will Ever Convict.

ROSEBURG, April 12.—[Special] Much of the testimony introduced at the preliminary examination of Geo. E. Richardson last night was of a very trifling nature. Following is a synopsis of what was brought out by some twenty witnesses and the accused himself, including reported conversations, confessions and admissions which detectives for the company claim to have got out of him while he was in the hospital at Portland.

THE CASE AGAINST RICHARDSON.
 The defence had no testimony to offer worth speaking of except the man's own story which has been already several times printed in the JOURNAL and was not materially changed. On the part of the prosecution there were a great many witnesses and but little testimony of a positive nature. It was all circumstantial, but taken altogether, with the discrepancies in the person's different stories, presents rather a strange case. The points made are about as follows:

Richardson was seen near the scene of the attempted wreck the morning before the rail was removed. He passed the day in Yoncolla, most of the time in hiding under the warehouse. Was seen at the drug store, went to a grocery and purchased cheese and crackers, ate his lunch on the bank of the creek and then hid under the warehouse until after the freight passed. The section boss and wife heard noise in the night which sounded as if made by some one prying off a board, but did not pay much attention to it at the time. The tool house was afterward found to have been entered by running a board and prying up the roof which had been held up with a prop, indicating that it was the work of one man. A wrench and crowbar were taken and the roof and boards replaced. A protruding nail was found in a position likely to tear a man's coat on back while crawling through. A clear impression of shoe heels, near where foot of prop had rested, in a new or nearly new seven or eight shoe. Similar tracks discovered at scene of the attempted wreck. Prisoner wore shoes of this kind. No signs of a struggle or traces of blood on trestle where prisoner claimed he was stabbed. Only blood discovered was on one of the trestle timbers underneath near where crow bar and wrench were found, which looked as if it had been placed there with one's finger. Prisoner claimed to have no cuts or scars upon his body previous to that night. Shown to have cuts, similarly located previous to that time. Two days before, while talking with a railroad employee about train wrecks and robberies, etc., in reply to the statement that train wreckers had always failed, prisoner said: "The right man had not come along yet." Also had said that he was going to beat the road and if fired off the train some one else would be fired too. S. P. Company physician's statement that prisoner's wounds were not serious, was read. Garments exhibited showed that but little blood had been shed. Torn place on shoulder of coat exhibited that could have been made on nail in crawling into house where tools to remove rail were taken.

These and other items of more or less importance were elicited from the score of witnesses examined, in addition to the various stories he told to different persons while in the hospital, were considered enough to justify Justice Hamilton to bind Richardson over to the grand jury in the sum of \$5,000. There was a large attendance at court. No new evidence was adduced in addition to that already published. The prosecution was not allowed to introduce testimony connecting Richardson with any other attempted train wreck or crime. The general opinion is that Richardson is guilty, but the testimony was not so strong as expected. The opinion is that no jury will ever convict Richardson unless strong evidence is obtained. The next term of circuit court convenes the fourth Monday in June.

CIRCUMSTANCES.

The Salem JOURNAL is at least original. Speaking of the Richardson arrest it says: "The JOURNAL still believes the detective, attorneys and Pinkertons employed by the company are trying to fix this thing upon Richardson as an excuse to justify their existence. Even if Richardson is discharged they will create a cloud of suspicion that will save the company doing anything for him. If their own attorneys convict him the company will save its \$3000 reward." And yet all the circumstances and evidence incline to make people believe that Richardson committed the act. One's prejudice against a railroad should not

take away their sense of justice.—Albany Democrat.
 The Democrat should remember that a great deal of the "circumstantial evidence" alluded to was manufactured and placed in the mouths of the newspapers by these very detectives and Pinkertons whose headquarters are at Portland.
 They have hung more than one man and sent scores to penitentiaries, just as they will Richardson, whether he is innocent or guilty. THE JOURNAL has shown no disposition to prejudice against a railroad company, on the other hand it is not easily worked by "detectives" laboring for their fee.

THINGS MOVING IN SALEM.

How One Firm is Doubling Up Its Business—Daily Arrivals.

During the present week the spring activity in business circles has begun in good earnest. Salem always was a good business town, but never before have active merchants been compelled to stock up so liberally as now. A sample of what one firm is doing will interest all who have purchases to make. At E. F. Osburn's Racket store nearly 25 large cases of new goods have been opened the past few days. All hands are busy making up and preparing for the immense spring trade. This store has more than quadrupled its business within the past two years, and now has as fine a shoe department and general stock as can be found on the coast. Their wonderful system of selling at almost cost for cash has made this possible.

Among the goods just opened is a line of ladies' black hose for 20c, worth 35c, ladies' and boys' blouse waists from 25c up, worth nearly double the money. Ladies' and children's underwear at prices that are a revelation to all. The favorite "H & S" corsets, from 60 cents up. Black and ecru lace, going at actually half price. Their line of ladies' shoes is unsurpassed, including the finest kid, fancy tip for \$2.50, sold elsewhere for \$4.00. Ladies' good shoes as low as \$1.40. Children's foot wear at grand bargains. It is needless to enumerate further, as the stock includes everything, and the price on every article is absolutely below all competitors.

On March 9th O. P. Dabney posted notices setting forth the fact that at the April term of county court he would ask cancellation of the plat known as the State street annex to Simpson addition to the city of Salem, with the

Don't You Know

that you can secure almost immediate relief from indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with indigestion and the like. It is the inaction of the Liver that causes indigestion, and that fullness; also Constipation, and those Bilious Headaches. Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unfailing and purely vegetable.

From Rev. M. B. Wharton, Baltimore, Md.
 "It affords me pleasure to add my testimony to the great virtues of Simmons Liver Regulator. I have had experience with it, as occasion demanded, for many years, and regard it as the greatest medicine of the times. So good a medicine deserves universal commendation."

exception of lot No. 17 and 18 in block 1 of that plat, and also the vacation of all streets, avenues and alleys in the plat. Burton Brothers, owners of all of block "C," also petitioned for the vacation of the same streets. On April 8th ordered that prayer of petitioners be granted. Above is a gratuitous publication as news. The law requires an official statement of the matter as entered of record to be published in two newspapers. This law is evaded in this county and the real acts and orders of the county court remain a sealed book.

A Good Reason for Living.

"She lives to love and loves to live. She loves to live because she lives to love." Many think it is a sin to be sick; being so, one cannot bestow the affections on others as the Creator intended; being so, it certainly is a duty to cure yourself. Most women, these days, need an invigorating tonic. Worn-out teachers, "shop girls," dressmakers, milliners, and those subject to tire some labor, have found a boon in Dr. Pierce's Favorite prescription. It is a soothing and strengthening nerve, inducing refreshing sleep, relieves despondency and restores to full use all the appetite and affections of one's nature. It is sold by druggists, under a guarantee from its makers that it will, in every case, give satisfaction, or price (\$1.00) will be promptly refunded.

A Successful Artist.

A clerk from one of the government departments was in Detroit recently visiting a friend.

"Who's the party I saw with you yesterday?" asked a citizen of the host.

"He's from Washington," was the rather indefinite reply.

"What does he do there?"

"He's an artist."

"Why, some one told me he was a government employee."

"He is."

"He isn't much of an artist, is he?"

"Of course. Why not?"

"Because if he were he wouldn't be in the government employ."

"He is just the same, and a first class artist too."

"What does he do?"

"He draws."

"Draws what?"

"Eighteen hundred dollars every year."—Detroit Free Press.
